TRADUCCIÓN EN ESPAÑOL INCLUIDA - PAGE 6

## Blink, and it's the end of the school year.

### DIRECTOR'S CORNER

**W**e worked diligently to finish the school year strong with so many great activities, including the Week of the Young Child and the celebration of a successful year with our SuperMENTors. A big thank you to our SuperMENTors.

Meanwhile, we have been busy recruiting students for the 2022-23 school year and can't wait to go back to full capacity. Parents, please spread the word to other parents with young children in your community what a great program we have. With that in mind, we are looking to hire people who would be a great match for our program. We need people who are enthusiastic and purpose-driven and LOVE working with young children. If you know anyone who fits that description, please direct them to our Website, as they would be a great addition for Head Start. Visit [www.teachharriscounty.org/head-start](http://www.teachharriscounty.org/head-start) for more information.

With summer upon us, it looks like we are back to some kind of normalcy, so I really hope you get to do some traveling and exploring. For children transitioning to kindergarten we wish you the very best. We are excited for you and know you will do great at your new school.

Finally, I always like to remind parents to read, read, read with your children during the summer.

— VENETIA L. PEACOCK

Discovery Green

## What to do this summer?

**N**ow that most places are opening up again this summer, families with young children can enjoy the many low-cost activities in and around Houston that are fun and enriching.

To cool off, visit a spray park or splash pad that many public parks have installed, including those in Baytown, Discovery Green and Zube Park. Check out what's going on for young children and a book or two at a local library. For information, visit [houstonlibrary.org](http://houstonlibrary.org) and [www.hcpl.net](http://www.hcpl.net).

Evelyn's Park, Levy Park, Discovery Green, Hermann Park, Memorial Park, Emancipation Park, Houston Arboretum, Bay Area Park in Pasadena, to name a few, offer fun activities for the whole family, from movie nights and nature walks to story time and kids' bingo.

To find out what's happening at these locations, visit:

- Hermann Park: [hermannpark.org/calendar/](http://hermannpark.org/calendar/)
- Houston Zoo: [houstonzoo.org](http://houstonzoo.org)
- Children's Museum of Houston: [cmhouston.org](http://cmhouston.org)
- Miller Outdoor Theatre: [milleroutdoortheatre.com](http://milleroutdoortheatre.com)
- Discovery Green: [discoverygreen.com](http://discoverygreen.com)
- Evelyn's Park: [evelynspark.org](http://evelynspark.org)
- Levy Park: [levyparkhouston.org](http://levyparkhouston.org)
- Hermann Park: [hermanpark.org](http://hermanpark.org)
- Baytown parks: [baytown.org/218/Parks-Recreation](http://baytown.org/218/Parks-Recreation)
- Emancipation Park: [epconservancy.org/](http://epconservancy.org/)

## Week of Young Child event celebrates creativity and outdoors

The community of Baytown celebrated the Early Head Start program during the Week of the Young Child with arts, crafts, reading, music and movement designed around Barney Saltzberg’s book “Beautiful Oops.”

The April 7 event was created to promote creativity and fine motor skills for children up to 3 years-old under the book’s premise that mistakes are an adventure in creativity. The goal was to stimulate a child’s senses, their physical and social-emotional development and encourage family bonding and community connections in the context of Baytown’s open spaces, arts and culture.

First3Years is a grant partner on the project, which is meant to encompass the priorities of THRIVE (Tool for Health and Resilience in Vulnerable Environments), a framework that enables communities to determine how to improve health and safety and promote health equity.

# Don’t leave check-ups and immunizations to the last minute

Parents are reminded to get pediatric check-ups and immunizations out of the way as early as possible this summer in time for the start of school in August. All students should be up to date with their immunizations according to their age prior to starting the Head Start program and have had a physical check-up by the 90th day of school.

Immunizations, health related accommodations, a completed TB questionnaire and a current Individual Care Plan and Asthma Action Plan, if applicable, must be cleared in order for a child to be enrolled in Head Start or Early Head Start. If a child does not have clearance they will not be able to start in the program. Family Services Providers will work with families to make sure these are not barriers and help them identify medical and dental providers, as well as emergency medical care.

“Our number one priority is our students’ health,” said Jasmine Imo, Manager of Health and Family Services. “We want to make sure that all students are up to date with their immunizations to prevent them from becoming ill, as well as maintaining a healthy school environment for all students and staff.”

Ensuring all students are up to date with their health records is a requirement of Head Start. For an immunization schedule and more information, go to Texas Health Steps at [www.hhs.texas.gov](http://www.hhs.texas.gov).

## Food Science a success despite restrictions

This year’s Food Science Fair was a great success, though it was a little different due to COVID restrictions. Designed to promote healthy eating as part of the gardening curriculum, the Food Science Fair called for each student to create a project with their families. Once completed families uploaded video clips and photos documenting their student’s experience.

In addition, each classroom at every campus created a joint project, allowing students to learn together about a fruit or a vegetable and to create a recipe. Instead of selecting one winner, all the students were acknowledged at the Policy Council’s March meeting.

# APPLY NOW

## slots available at all campuses

For more information, visit [www.hcde-texas.org](http://www.hcde-texas.org).

As an assistant in the after school program at Kool Kids Day Care, Sylvia Vasques said it was convenient to have her son Jayden in day care where she worked, but having him in one of Kool Kids' Early Head Start slots has been a bonus. She said the enriching curriculum, high teacher-student ratio and family support has allowed Jayden, now 2, to blossom and has been helpful for her.

"Jayden has grown so much with Early Head Start – they taught him how to play, how to sing – to paint," Vasques said. "His mind has been opened to a different world, and I can say my son is way ahead of what my two older children were doing at this age."

Vasques, a single mom, said she also has learned a lot about child development since Jayden has been in the program and received help getting formula, wipes and diapers.

"That made a big difference," she said.

Angelia Speegle, said all three of her children, including her youngest 5 year-old Mariyah, who attends Channelview, have thrived in Head Start. She said the teachers are friendly and responsive, and the program catered to her older son's special diet.

"It's an amazing campus – the children advance so much socially and educationally," Speegle said.

Speegle, Channelview's Policy Council Representative, said the administration is responsive to the needs of the campuses.

Both parents were eager to spread the word about Head Start programming, whether it's through Kool Kids in Pasadena, with slots under the Early Head Start-Child Care Partnerships, Early Head Start or traditional campuses like Channelview.

"I would definitely recommend it to any parents," Speegle said.

Jasmine Imo, Manager of Health and Family Services, said Early Head Start and Head Start not only offer a high quality education for children, but also offer other supports and resources for families so that children will be successful – academically, socially and emotionally.

HCDE Head Start Senior Director Venetia L. Peacock urged parents and staff to spread the word about Head Start and all the great things they do for children and families

## Parents have vital role in transition

Whether it's moving on to kindergarten or moving up from Early Head Start, emotions may be running high as children and parents anticipate transitioning to the next stage. Instructional Coach Ruby Blue said Head Start has laid the ground work for students to transition successfully from one learning environment to the next. Now with summer on the horizon, it's up to parents to continue preparing their child for the new experiences ahead.

Blue had these tips for parents to help support their child:

- Read books together about moving to a new classroom and making new friends.
- Visit the new school or classroom beforehand.
- Develop a calm and confident routine at drop-off and reassure your child about pick-up.
- Discuss any concerns your child might have with them.
- Be enthusiastic and excited about what's coming next.

## MORE FOOD SCIENCE PHOTOS

# Campuses thrive with support of close-knit community

Like all HCDE Head Start campuses, J.D. Walker in Baytown offers a strong curriculum that prepares students for kindergarten. But being at the heart of a tight-knit community with a park on the doorstep and caring seniors who help put on special events really does make the campus a special place, according to Campus Manager Lisa Wells.

“It’s great being near a big beautiful park to go on nature walks and have different activities,” Wells said of Edna Mae Washington Park.

Because the campus is housed in the J.D. Walker Community Center, which also offers activities for seniors, there are opportunities to join forces for Easter egg hunts and holiday celebrations. Wells said it’s a win-win for the seniors and the children.

Named in honor of long-time resident, community leader and educator Jefferson D. Walker, the community center has served residents since 1978 and provides programs for all ages, including Head Start.

Agnes Hearon - John G. Jones Learning Center

Currently J.D. Walker has 46 students ages 3 to 5, who are served by seven teachers, a cook, a custodian, Manager, Assistant Manager and a Family Services Provider. There is a shaded playground outside and of course the park. Wells said close communications between parents and staff, despite the limitations of COVID, and a multi-cultural teaching staff also make the campus a special place that allows children to blossom.

Like J.D. Walker, John G. Jones Learning Center in Barrett Station is situated within a tight-knit and supportive community. So much so, that Site Director Agnes Hearon, said she doesn’t have to recruit parents. Rather they come by word of mouth.

The campus offers child care services for students from 6 weeks to 5 years. It also offers before and after school and summer programming for students up to 12 years. The campus partnered with Head Start 5 years ago, the first in the Child Care Partnership program, and has nine Early Head Start slots for infants and toddlers.

Even though the campus is housed in a Masonic Lodge, it meets all the needs of the staff and students, which number around 35 during the day and 12 before and after school. There is a playground and portable garden, allowing for outdoor learning. The Masons meet in the evenings after 6 p.m. and on weekends.

# Barrett Station moves forward with EHS services

**B**arrett Station is preparing to open in-person services for summer school at its temporary location starting June 14. Meanwhile, planning is moving forward on the new building that will be added to the existing campus, enabling Barrett Station to offer an Early Head Start program for the first time with 32 slots. EHS remote services started on May 2.

“We have been focusing on recruiting qualified and motivated teachers and family services staff for our youngest students,” said Head Start Senior Director Venetia L. Peacock. “This will support our goal of providing high quality educational and family support to our families in the Crosby area.”

Coolwood and Humble campus construction projects are also moving forward. The old Coolwood facility has been demolished, and the next stage of clearing the property is getting started.

## MARK YOUR CALENDAR

### JUNE

 8 .....First Day of School

Check with each Campus Manager for details of these and other happenings, as dates may vary for each campus.

# Candidates sought for campus and administrative positions

**I**t takes a special kind of person to work with children, according to HCDE Head Start Senior Director Venetia L. Peacock. But if that special person is out there looking for a position, HCDE Head Start needs you.

Candidates should have a good work ethic, a love of working with children, organizational skills and an understanding of customer service.

“Those are the skills that we need people to bring to the table,” Peacock said.

In return, there is the promise of a competitive salary, a comprehensive healthcare package, teacher retirement and social security benefits, a school district calendar, financial assistance for further education in child development and an excellent working environment.

“We are looking for people who will make our work place

greater, and we want to let them know, ‘these are things we can offer you to enhance your life,’” Peacock said.

Lisa Boone, Assistant Director of Education and Operations, said they are looking for teachers, teaching assistants, substitute teaching assistants, cooks, custodians, and family services providers for campus-based positions and in administration.

“Our work environment is reflective of our commitment to the growth, well-being and success of all children and families we serve,” Boone said. “It is also exciting to be a part of an organization named as a Houston Chronicle Top Workplace three years in a row!”

Boone encouraged Head Start parents to apply. She said hiring parents is a way to demonstrate that Head Start values the important role parents play in their child’s development.

**Job fairs are scheduled for June 16 and July 26 at the HCDE main office (100), 6300 Irvington Blvd., and on June 25 at three locations: HCDE main office (100), Barrett Station, and La Porte Head Start Campuses.**

**For more information and to apply for a position, visit [www.teachharriscounty.org/head-start](http://www.teachharriscounty.org/head-start)**

MAY 2022 NEWSLETTER

TRADUCCIÓN EN ENGLISH INCLUIDA - PAGE 1

## En un abrir y cerrar de ojos ya estamos en el final del año escolar

### RINCÓN DEL DIRECTOR

**H**emos trabajado con diligencia para terminar el año escolar con fuerza con tantas actividades estupendas, incluyendo la Semana del Niño Pequeño y la celebración de un año exitoso con nuestros SuperMENTores. Un gran agradecimiento a nuestros SuperMENTores.

Mientras tanto, hemos estado ocupados reclutando estudiantes para el año escolar 2022-23 y estamos ansiosos por volver a la capacidad plena. Padres, por favor hagan correr la voz a otros padres con niños pequeños en su comunidad sobre el gran programa que tenemos. Con eso en mente, estamos buscando contratar a personas que serían una excelente opción para nuestro programa. Necesitamos personas que sean entusiastas y tengan un propósito y que AMEN trabajar con niños pequeños. Si usted conoce a alguien que se ajuste a esa descripción, por favor diríjalo a nuestro sitio web, ya que sería una gran incorporación para Head Start. Visite [www.teachharriscounty.org/head-start](http://www.teachharriscounty.org/head-start) para más información.

Con el verano sobre nosotros, parece que estamos de vuelta a algún tipo de normalidad, así que realmente espero que puedan viajar y explorar. A los niños que pasan a kínder les deseamos lo mejor. Estamos emocionados por ustedes y sabemos que les irá muy bien en su nueva escuela.

Finalmente, siempre me gusta recordar a los padres que lean, lean y lean con sus hijos durante el verano.

— VENETIA L. PEACOCK

## ¿Qué hacer este verano?

**A**hora que la mayoría de los lugares vuelven a abrir sus puertas este verano, las familias con niños pequeños pueden disfrutar de las tantas actividades de bajo costo que hay en Houston y sus alrededores y que son divertidas y enriquecedoras.

Para refrescarse, visite un parque acuático o un chapoteadero que muchos parques públicos han instalado, incluidos los de Baytown, Discovery Green y Zube Park. Consulte las actividades para niños pequeños y un par de libros en una biblioteca local. Para información, visite [houstonlibrary.org](http://houstonlibrary.org) y [www.hcpl.net](http://www.hcpl.net).

Evelyn's Park, Levy Park, Discovery Green, Hermann Park, Memorial Park, Emancipation Park, Houston Arboretum, Bay Area Park en Pasadena, por nombrar algunos, ofrecen divertidas actividades para toda la familia, desde noches de cine y paseos por la naturaleza hasta la hora de los cuentos y el bingo infantil.

Para saber qué hay en estos lugares, visite:

- Hermann Park: [hermannpark.org/calendar/](http://hermannpark.org/calendar/)
- Houston Zoo: [houstonzoo.org](http://houstonzoo.org)
- Children's Museum of Houston: [cmhouston.org](http://cmhouston.org)
- Miller Outdoor Theatre: [milleroutdoortheatre.com](http://milleroutdoortheatre.com)
- Discovery Green: [discoverygreen.com](http://discoverygreen.com)
- Evelyn's Park: [evelynspark.org](http://evelynspark.org)
- Levy Park: [levyparkhouston.org](http://levyparkhouston.org)
- Hermann Park: [hermanpark.org](http://hermanpark.org)

- Emancipation Park: [epconservancy.org/](http://epconservancy.org/)

## El evento de la Semana del Niño Pequeño celebra la creatividad y el aire libre

La comunidad de Baytown celebró el programa Early Head Start durante la Semana del Niño Pequeño con artes, manualidades, lectura, música y movimiento diseñados en torno al libro "Beautiful Oops" de Barney Saltzberg.

El evento del 7 de abril se creó para promover la creatividad y la motricidad fina de los niños de hasta 3 años bajo la premisa del libro de que los errores son una aventura en la creatividad. El objetivo era estimular los sentidos de los niños, su desarrollo físico y socio-emocional y fomentar la unión familiar y las conexiones comunitarias en el contexto de los espacios abiertos, las artes y la cultura de Baytown.

First3Years es un socio de la subvención del proyecto, que pretende abarcar las prioridades de THRIVE (Tool for Health and Resilience in Vulnerable Environments), un marco que permite a las comunidades determinar cómo mejorar la salud y la seguridad y promover la equidad sanitaria.

# No deje los chequeos y las vacunas para último momento

Se recuerda a los padres que este verano deben hacer los chequeos pediátricos y aplicar las vacunas lo antes posible, a tiempo para el comienzo de clases en agosto. Todos los estudiantes deben estar al día con sus vacunas de acuerdo a su edad antes de comenzar el programa de Head Start y deben haberse realizado un chequeo físico para el día 90 de clases.

Las vacunas, las adaptaciones relacionadas con la salud, un cuestionario de tuberculosis completado y un plan de atención individual y un plan de acción contra el asma actualizado, si corresponde, deben ser aprobados para que un niño sea inscrito en Head Start o Early Head Start. Si un niño no tiene la aprobación, no podrá comenzar en el programa. Los proveedores de servicios familiares trabajarán con las familias para asegurarse de que estos no sean obstáculos y les ayudarán a identificar proveedores médicos y dentales, así como atención médica de emergencia. Asegurar que todos los estudiantes estén al día con sus registros de salud es un requisito de Head Start. Para obtener un calendario de vacunación y más información, vaya a Texas Health Steps en [www.hhs.texas.gov](http://www.hhs.texas.gov).

## La Ciencia de la Alimentación fue un éxito a pesar de las restricciones

La Feria de Ciencias de la Alimentación de este año fue un gran éxito, aunque fue un poco diferente debido a las restricciones de COVID. Diseñada para promover una alimentación saludable como parte del plan de estudios de jardinería, la Feria de Ciencias de la Alimentación requería que cada estudiante creara un proyecto con sus familias. Una vez completado, las familias subían videos y fotos que documentaban la experiencia de sus estudiantes.

Además, cada aula de cada campus creó un proyecto conjunto, permitiendo a los estudiantes aprender juntos sobre una fruta o una verdura y crear una receta. En lugar de seleccionar a un ganador, todos los estudiantes recibieron un reconocimiento en la reunión de marzo del Consejo de Políticas.

Humble

# POSTÚLESE AHORA

## plazas disponibles en todos los campus

Para más información, visite [www.hcde-texas.org](http://www.hcde-texas.org).

Como asistente en el programa extraescolar de Kool Kids Daycare en Pasadena, Sylvia Vasques dijo que era conveniente tener a su hijo Jayden en un lugar donde ella trabajaba, pero tenerlo en una de las plazas de Early Head Start de Kool Kids ha sido una ventaja. Dijo que el plan de estudios enriquecedor, la alta proporción entre maestros y estudiantes y el apoyo de la familia han permitido que Jayden, ahora de 2 años, se desarrolle y ha sido salvador para ella. Vasques, madre soltera, dijo que también ha aprendido mucho sobre el desarrollo infantil desde que Jayden está en el programa y ha tenido ayuda para conseguir leche de fórmula, toallitas y pañales.

Angelia Speegle, dijo que sus tres hijos, incluyendo su hijo más pequeño de 5 años de edad, Mariyah, han crecido muy bien en el campus Channelview de Head Start. Dijo que los maestros son amables y receptivos, y el programa atendió a la dieta especial de su hijo mayor. Además, Speegle, representante del Consejo de Políticas de Channelview, dijo que la administración es sensible a las necesidades de los campus.

Ambos padres estaban dispuestos a hacer correr a voz sobre las ventajas que ofrece el programa Head Start, ya sea a través de lugares como Kool Kids, con plazas en virtud de Early Head Start-Child Care Partnerships, Early Head Start o los campus tradicionales como Channelview. Jasmine Imo, gerente de servicios de salud y familia, dijo que Early Head Start y Head Start no solo ofrecen una educación temprana de alta calidad para los niños, sino que también ofrecen apoyo y recursos para las familias para que los niños tengan éxito - académicamente, socialmente y emocionalmente.

## Los padres tienen un rol fundamental en la transición

La instructora Ruby Blue dijo que Head Start ha sentado las bases para que los estudiantes pasen con éxito de un entorno de aprendizaje a otro, y que ahora corresponde a los padres seguir preparando a sus hijos para las nuevas experiencias que les esperan. Blue dio estos consejos a los padres para ayudar a sus hijos:

- Lean juntos libros sobre el cambio a un aula nueva y sobre cómo hacer nuevos amigos.
- Visite la nueva escuela o salón de clases antes de que comiencen las clases.
- Desarrollen una rutina tranquila y segura para dejar a su hijo y tranquilícelo con respecto a su recogida.
- Hable con su hijo sobre cualquier preocupación que pueda tener.
- Muéstrese entusiasmado y emocionado por lo que va a suceder.

# Los campus prosperan con el apoyo de una comunidad muy unida

**C**omo todos los campus de HCDE Head Start, J.D. Walker en Baytown ofrece un sólido plan de estudios que prepara a los estudiantes para kínder. Pero estar en el corazón de una comunidad muy unida, con un hermoso parque en la puerta y adultos mayores que ayudan a organizar eventos especiales, realmente hace que el campus sea un lugar especial, según la directora del campus, Lisa Wells.

Dado que el campus se encuentra en el Centro Comunitario J.D. Walker, que también ofrece actividades para los adultos mayores, hay oportunidades de unir fuerzas para la caza de huevos de Pascua y la celebración de festividades. Wells dijo que es un beneficio mutuo para los adultos mayores y los niños.

En la actualidad, J.D. Walker tiene 46 estudiantes de entre 3 y 5 años, que son atendidos por una plantilla de 12 personas. Además del parque, hay una zona de juegos con sombra. Wells dijo que la estrecha comunicación entre los padres y el personal, a pesar de las limitaciones del COVID, y un personal docente multicultural también hacen del campus un lugar especial que permite a los niños desarrollarse.

Al igual que J.D. Walker, John G. Jones Learning Center de Barrett Station está situado en una comunidad muy unida y solidaria. Tanto es así, que la directora del centro, Agnes Hearon, dijo que no tiene que reclutar a los padres. Más bien vienen de boca en boca. El campus ofrece servicios de guardería para niños de seis semanas a cinco años durante el día y programas antes y después de la escuela y de verano para niños de hasta 12 años. El campus se asoció con Head Start hace 5 años, el primero del programa Child Care Partnership, y tiene nueve plazas de Early Head Start para bebés y niños pequeños.

# Se buscan candidatos para puestos administrativos y en el campus

**S**e necesita un tipo especial de persona para trabajar con niños, según la directora principal de HCDE Head Start, Venetia L. Peacock. Pero si esa persona especial está buscando un puesto, HCDE Head Start lo necesita.

Peacock dijo que los candidatos deben tener buena ética de trabajo, amor por el trabajo con los niños, habilidades de organización y comprensión del servicio al cliente. A cambio, existe la promesa de un salario competitivo, un paquete completo de asistencia médica, beneficios de jubilación y seguridad social para los maestros, un calendario del distrito escolar, ayuda financiera para continuar la educación en el desarrollo infantil y un excelente ambiente de trabajo.

Lisa Boone, directora adjunta de educación y operaciones, dijo que están buscando maestros, asistentes de enseñanza, asistentes de enseñanza suplentes, cocineros, conserjes y proveedores de servicios familiares para puestos en el campus y en la administración. Boone alentó a los padres de Head Start a postularse.

**Las ferias de empleo están programadas para el 16 de junio y el 26 de julio en la oficina principal de HCDE (100), 6300 Irvington Blvd., y el 25 de junio en tres ubicaciones: la oficina principal de HCDE (100), Barrett Station y los campus de La Porte Head Start.**

**Para obtener más información y para solicitar un puesto, visite [www.teachharriscounty.org/head-start](http://www.teachharriscounty.org/head-start)**

## Barrett Station avanza con los servicios de EHS

**B**arrett Station se está preparando para abrir los servicios presenciales de la escuela de verano en su ubicación temporal a partir del 14 de junio. Mientras tanto, la planificación avanza en el nuevo edificio que se añadirá al campus existente, lo que permitirá a Barrett Station ofrecer por primera vez un programa Early Head Start con 32 plazas. Los servicios remotos de EHS comenzaron el 2 de mayo. Los proyectos de construcción de los campus de Coolwood y Humble también avanzan. Las antiguas instalaciones de Coolwood han sido demolidas y se está iniciando la siguiente fase de limpieza de la propiedad.

### MARQUE SU CALENDARIO

#### JUNIO

1-9 .....Los campus de EHS están cerrados  
10-30 .....Horario de verano de EHS  
(CERRADO LOS VIERNES)

#### JULIO

4-7 .....Los campus de EHS están cerrados  
11-28 .....Horario de verano de EHS
